

Our energies for a Better Life

Government

Bouygues Energies & Services leadership in shaping the country and communities.

Whether central or local government our focus is on **delivering services** and **project solutions** that meet the specific need of each organisation and the communities they serve.

From [facility management](#) [1] to capital projects to [public lighting](#) [2], our solutions are based on collaborative working which maximise innovation and value for money for the benefit of the public purse.

Across heritage, listed or modern properties we can add value to your property portfolio and provide **sustainable solutions** that improve energy performance and reduce costs.
