

Our energies for a Better Life

Health and Safety

Bouygues Energies & Services strives for Health & safety excellence. We are continually working towards a zero accident rate, through an ongoing commitment to the development of a positive culture throughout the business. We openly welcome innovation and flair and the sharing of best practices within the Group and the industry sectors we operate within.

We passionately believe that by empowering our staff and talking to our clients we can continue to deliver significant health and safety improvements, achieved through [support, training and mentoring](#) [1].

Bouygues Energies & Services is certificated to OHSAS18001 and believes that performance delivered in a structured and formalised manner, sets the foundations on which we can improve upon. We are active members of numerous groups and forums, that actively influence new initiatives and developments.

Externally Bouygues Energies & Services's continual improvement and high levels of health and safety performance have been recognised by **RoSPA**, being consecutive and multiple Gold Award winners and achieving the higher accolade of a Gold Medal for sustained excellence over a prolonged period.
